ParentSquare

ParentSquare is a simple, interactive, and secure platform between school-and-home communication. This tool provides news sharing, school and class directories and calendars, volunteer scheduling and wish lists, and tools for committees and other groups at school, in a single, consolidated place for all communications.

Welcome to ParentSquare. Here's some of what you can do on ParentSquare. Let's get started:

1. SIGN UP at www.parentsquare.com! You will be receiving an invitation from the Jing Mei PTSA via e-mail. Please look out for this e-mail!!!
2. Find ALL school events, announcements, student/staff directory, volunteer sign ups, pictures, etc in **ONE PLACE**. The [event calendar](#) will have the entire year's events, as scheduled. This is the one place where you can get all info.
3. Get familiar: Check your [school directory](#) on ParentSquare. Talk to parents you know at school about ParentSquare if you do not see them in the school directory.
2. [Update your record](#) for the school directory. You can add a family picture. Hide or show your email, phone and address.
3. [Change your notification preferences](#). You can choose to receive notifications as email and/ or text, instantly or as a digest newsletter. Only the messages pertinent to your student/grade are sent and included in the digest.
4. Add [pictures to albums](#) shared by your teacher or at school. Pictures are fun to see and share. Pictures uploaded to your class are private, secure and viewable only by parents in your class.
6. If your school requires, [enter volunteer hours](#) online. ParentSquare provides an easy look up for all items you signed up for and all events you volunteered for.
7. Download the ParentSquare iPhone or Android [app](#) and keep track of all school activities on the go.
8. [Communicate](#) with class parents/room parents/teacher.
9. Give appreciations for posts generously. Teachers and school leaders love receiving them!

Thank you and Happy ParentSquaring!! <https://www.parentsquare.com/>
